

HOME CARE OF ROCHESTER

Job Opening- RN Community Health Nurse

Days, Evenings or Weekends

Full or Part time

Position is currently posted indefinitely

Summary: Administer skilled nursing care to patients in the home setting. Teach and supervise the family and other members of the nursing team. Perform these services in accordance with the physician's orders and under direction and supervision of the Director of Clinical Services/Program Managers and Clinical Care Manager/Team Leader.

Description: Overall responsibilities include providing and coordinating quality patient care, maintaining a number of cases, maintaining productivity goals with consideration of case mix, and accurate, timely documentation.

- Manage each patient's care as efficiently and cost effectively as possible to achieve positive patient outcomes regardless of payer.
- Responsible for the overall plan of care and the outcome of that care, including care delivered by other nursing staff (LPN, HHA) who must be directed and supervised by the CHN.
- Document services rendered to the patient, and any changes noted in the patient's condition and/or family and home situation; make revisions in the nursing care plan as needed; record supervisory visits conducted with the home health aide; evaluate patient care and progress; and close charts of discharged patients.

Qualifications: A registered professional nurse with a baccalaureate degree in a health or human services field or registered nurse with one year of experience.

HCR is seeking Bilingual (Spanish and English) Community Health Nurses as well as those interested in Bicultural nursing.
